

SHAPE MAKING INSTRUCTIONS

There are ten equations below this small wall of text. Graph each equation on your graph paper, from as close to the paper's center as you can manage. The equations shown are quite easy to place into context. so there shouldn't be any problems. below these are sets of points on the graph. Place and connect the dots in order to complete the image.

1. $y=5$

2. $y=1x+7$

3. $y=-1x+7$

4. $y=0.5$

5. $y=1x-5$

6. $y=-1x-5$

7. $y=9$

8. $y=-8$

9. $x=14$

10. $x=-14$
